Office of Legislative Counsel

Monday - 18 August 1958

2. An effort was made to reach Representative Norblad and a message was left with his office that the Agency was offering to brief him further on the question he raised in the hearing of 30 July 1958 concerning distribution of intelligence to combat commands. Norblad's office thought he would be very much interested. They were to advise us further.

5. Talked with Miss Montgomery in Senator Barry Goldwater's office (R., Ariz.) and advised her that we had some general information on the subject of relative signal strength of Soviet and U. S. radio stations. We also offered to make available to the Senator an expert on this subject if he wished to discuss it in further detail.

JOHN S. WARNER
Legislative Counsel
